CQCOMMAND

Release Notes

26 October 2015

RiskLogic
A Resilient Future

CQCOMMAND
v2.00.00

Current Release: 2 Way Notifications

1 Full 2 way SMS and Email messaging capability is now available to notify contacts and access message recipient replies from the system. This includes message filtering and reporting.

2 2 way response options include Yes/No responses for roll-call purposes or free text responses so you can create a communication chain with selected recipients.

RiskLogic — A Resilient Future

CQ COMMAND

Current Release: 2 Way Notifications

3 Yes/No functionality allows you to canvas a positive or negative response from recipients for roll call or surveying purposes.

4 Free text functionality allows you to receive text responses to your message (via SMS or email) and to create a communication chain with individual or groups of recipients.
